1953 BUICK—NEW POWER, PERFORMANCE, STYLING

Buick introduces for 1953 a Golden Anniversary line of cars with outstanding engineering developments which include the world's newest V-8 engine and an advanced Dynaflo transmission. Pictured above is the two-door, six-passenger Riviera in the Super Series, most popular hard-top in the Buick line. Its new engine, leader of all V-8s, turns up 170 horsepower with a compression ratio of 8.5 to 1. The new Twin Turbine Dynaflo gives it vastly improved performance and greater economy with no sacrifice of Buick's completely smooth acceleration. It has a re-styled front end incorporating a sturdier grille, two-piece bumper, and a futuristic headlight arrangement. A new alligator-type hood, long-flowing body lines, new moldings and ventipoints, and horizontal rear fenders with bullet-shaped tail lights, give the car an ultra-modern, sleek appearance. The interior features fresh new colors and tasteful trim. Its wheel-base is 121½ inches and offered as optional equipment are wire wheel covers and power steering.

SOCIAL and PERSONAL

Miss Debra Creason of Blairstown, Tenn., is visiting her grand mother, Mrs. Rollie Creason in Benton.

Miss Charlene Holt of Route 5 renewed her subscription to the Marshall Courier while in Benton last Thursday afternoon.

Mrs. A. E. Cross of Dover, Tenn visited in Benton on business Thursday and Friday. She reported that the Rev. Cross was ill at his home in Dover.

Mrs. Jim Harrison and Mrs. Marvin Holland of Route 4 were recent shoppers in Benton. Mrs. Harrison subscribed for the Courier while in town.

Elmer Davis was a business visitor in Benton Thursday.

Willard and Blanco Jones of Route 5 recently were in Benton on business.

Mr. and Mrs. Fred Reeder of Elva were shoppers in town last week.

Mrs. Charles Flenner is confined to her home by illness at 909 W. Cushing St. in Decatur, Ill. She is a former Birmingham resident and mother of Mrs. W. B. Cross, also of Decatur.

Mrs. Debra Martin of Detroit was a recent guest in the homes of her sisters, Mrs. W. J. Meyer and Mrs. Rollie Hiett.

Mrs. Viola Fields will leave soon for Tucson, Ariz., to visit with the family of her daughter Laura Mandell.

PERSONALS

Luther Dowdy and wife of Rt. 1 were visitors in town last week. W. B. Kennedy of Gilbertsville was a business visitor in Benton last week.

Mrs. H. B. Holland, Mrs. Java Gregory of Benton were recent shoppers in Mayfield.

Mrs. Denny Gillihan is ill at her home on Route 5.

FUNERAL RITES HELD FOR MRS. NETTIE DUNCAN, 71
Funeral services for Mrs. Nettie Duncan, 71, who died Jan. 6 at her home on Dexter Route 1, were held Jan. 7 at a Callo-way County Church of Christ. Burial, by Linn Funeral Home, was held in the McDaniel Cemetery.

Survivors are her husband, Charlie Duncan, and one daughter, Mrs. Ethel Dixon of Dexter Route 1.

CARD OF THANKS
We wish to thank our many friends for the kindness and sympathy shown to us in the sudden death of our husband and father, Mr. Curt Noles.

We want to express our appreciation to the ones who brought food, which lightened our labors during the trying hours; and for the beautiful floral arrangements; to those in the song service; also to Doctors Miller and McCain for their untiring services; to Rev. Lloyd Wilson and Rev. John Kloss for their words of comfort; and to the Filbeck-Cann Funeral Home for their sympathetic care of the funeral services.

May God's blessings be upon each.

Mrs. Lala Noles & Family

Ex-Residents of County Enjoy Reading the Courier

Folks outside of Kentucky appreciate their Courier better probably more than anyone else. They just can't seem to miss a single copy without feeling like step-children.

Mrs. Dennis Tatum writes from Wichita, Kan.: "The last Courier received was Dec. 18. Please notify me if my subscription has expired as the home town paper means very much to us."

Myrtle Lewis writes from Effingham, Ill.: "Just a few lines to let you know we all still are alive, and how much I missed my paper. I believe my subscription expired in November. We were coming down about that time but first one thing and another kept us in town last week."

Mr. and Mrs. Harold Holland of Route 4 were business visitors in town last week.

Mrs. Katie Nelson of Route 5 was a shopping visitor in Benton Friday.

Clyde Walker of Route 4 was in town last week.

From Manpower to Machine Power

MECHANIZATION IS WORKING WONDERS IN THE SOUTH!

Agriculture's "big story" since World War II has been unfolding in the South, where phenomenal strides have been made in farm mechanization.

In just the past five years, this change-over from manpower to machine power has taken place in the 13 Southern States twice as fast as the nation as a whole.

To the South, mechanization has meant an agricultural revolution — bringing with it untold benefits not only to the Southern farmer, but to the entire South, the nation and the world. Outstanding among the benefits are more wealth — billions more dollars in Southern farmers bank accounts... increase in land value — more value per acre than ever before... more production per acre — greatly stepped up production and profits — better living — more of everything for everybody.

Everywhere in the South, the emphasis is being put on mechanization — its growth is encouraged and sponsored by universities, banks, Chambers of Commerce, industrial commissions and many others. Greater mechanization, together with the South's tremendous industrial growth, are paying off in progress and prosperity for the South — the Nation's No. 1 economic opportunity.

This report on the South's progress is brought to you by the NC&ST... always as part of its continuing effort to help in the building of a greater and more prosperous South

Two Hardest
Lesson for January 25, 1953

WHEN YOU see a pole-vaulter sailing like a bird over the high bar, it looks like the easiest thing in the world. When you see a watchmaker putting a hairspring into place, or a good cook whipping a cake together, it looks simple. But the simple things are seldom as easy as they look. So it is in the Christian life. It can be made to sound absolutely simple; but it never is. And it never is easy, either. Perhaps the two hardest things sound the easiest. Jesus made it plain that without them one cannot call oneself a true Christian. One is humility and the other is forgiveness. How easy they sound! But try them. They will test your spiritual muscle.

Can This Be Right?

There is another paradox about these two indispensable qualities of Christian living. They are not only much harder to practice than they sound, but they sound worse than they are. What is the quality which all Americans advise, imitate and practice with all their might? Isn't it aggressiveness, the go-getting spirit? Humility sounds like the opposite of that, and so we seldom hear it praised, at Rotary luncheons, in political speeches or in school textbooks. Even in church we don't hear much about it. Advising people to be humble sounds like advising them to aim for the bottom of the ladder, not the top.

As for forgiveness, this too goes against the natural grain. We can forgive people for mistakes, we can forgive them with good-grace when they haven't hurt us particularly. But when other people have actually done wrong, serious wrong, and done it to us or to some one I love, how then can I forgive them? Won't I be lowering myself to their level if I forgive? Won't it be the same as saying that what they did was quite right after all? Shant I be calling wrong, right? Isn't forgiveness turning right and wrong upside down?

Humble Like a Child

Let us look into these matters a moment. Take humility first. Jesus' illustration of humility is not some down-and-out lazy person without dreams, desires or ambitions. His model is the child. What is the humility of a child? It is the quality of teachableness. The child is not set in his ways. He is trustful. Even the liveliest child, even the most stubborn, will believe what he is told, and has a never-satisfied curiosity about everything. You can't tell the college sophomore much, he thinks he knows enough as it is. But no child thinks he knows everything. He is not suspicious, cynical, sophisticated, superior. He can grow.

Call the roll of the world's truly great men; they all have this quality of childlikeness, whether a greatly daring person like Scott, the explorer of the Antarctic, or a greatly wise person like Abraham Lincoln, or a greatly imaginative person like John Bunyan. All forms of greatness have in them the quality of the childlike. And the special humbleness that is essential for Christians is not only this, but humility before God. For the one sin that keeps one farthest away from God is the very opposite of childlikeness, namely pride.

Seventy Times Seven

Consider that other quality, the forgiving spirit. Does this really mean calling wrong, right? We should remember that forgiving is the same thing as condoning. You condone a wrong when you act as if it were not a wrong at all, really. When God forgives us he does not pretend that we have done no wrong, and when we forgive others we should not confuse wrong with right. Condoning means approving; forgiving does not. You can condone without love; it takes love to forgive.

But nowhere in the Bible is it said that God forgives, or that we are expected to forgive, apart from repentance. The hard and unrepenting spirit makes forgiveness impossible. Forgiveness is not a one-sided affair. It calls for humility on both sides, for forgiveness is a restoring of fellowship, and that cannot be done in pride. But is forgiveness a sign of weakness? Wait till you have been insulted, injured or wronged, and you will learn the truth about it. President Cheers Polio Patients

President-elect Dwight D. Eisenhower stops by at St. Mary's Hospital in Rochester, Minn., to visit with David Madden, who has been in an iron lung for five years. Young Jerry Snow, 12, looking on, experienced a light case of polio during 1952's record epidemic and is now fully recovered. Madden, who is being aided by March of Dimes, was much cheered by the President's visit. This 1953 March of Dimes campaign continues for the entire month of January. Contribute generously today.

An Ordinance

AN ORDINANCE OF THE CITY OF BENTON, KENTUCKY, ESTABLISHING CHARGES TO BE MADE TO USERS OF THE COMBINED AND CONSOLIDATED MUNICIPALLY OWNED WATER AND SEWER SYSTEM OF SAID CITY, AND PRESCRIBING CERTAIN TERMS AND CONDITIONS OF SERVICE.

WHEREAS, at a meeting held on September 8, 1952, the City Council of the City of Benton, Kentucky, adopted a certain ordinance which is identified by its title of caption as follows:

AN ORDINANCE OF THE CITY OF BENTON, KENTUCKY, COMBINING AND CONSOLIDATING THE EXISTING MUNICIPALLY OWNED WATER SYSTEM AND SEWER SYSTEM TO EFFECT CERTAIN ECONOMIES; AUTHORIZING THE ISSUANCE OF \$350,000 OF "CITY OF BENTON WATER AND SEWER REVENUE BONDS" TO PROVIDE THE COST OF EXTENSIONS AND IMPROVEMENTS TO SAID COMBINED AND CONSOLIDATED SYSTEM, AND ALSO TO REFINANCE OUTSTANDING BONDS PAYABLE FROM SEWER REVENUES AND WATER REVENUES; PROVIDING FOR THE COLLECTION, SEGREGATION AND DISPOSITION OF THE REVENUES OF SAID COMBINED AND CONSOLIDATED SYSTEM; AND PROVIDING FOR THE SALE OF SAID BONDS AT A PUBLIC ADVERTISED COMPETITIVE SALE.

and the same was approved by the Mayor, was duly published according to law, and is now in full force and effect, except that it has been amended in certain minor particulars by an amendatory ordinance which was adopted by the City Council at a meeting held on January 5, 1953, and

WHEREAS, said ordinance, as amended, authorizes the issuance of bonds of said city payable solely from the income and revenues of said combined and consolidated water and sewer system, and said city is about to sell \$350,000.00 of said bonds; and said city is required by the statutory laws of the Commonwealth of Kentucky to fix and establish such rates and charges for the services now provided and to be provided in the future by said combined system as to provide for all expenses of operating said system, and to provide for the setting aside of reasonable sums from time to time into a depreciation fund for extending and improving the system from time to time, and to provide periodic payments into a "Bond and Interest Redemption Fund" sufficient to pay and discharge the bonds and interest coupons, as the same mature from time to time.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF BENTON, KENTUCKY, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. EFFECTIVE DATE. The rates and charges fixed and established by this ordinance shall be effective and are hereby made applicable to the Feb. 1953 meter readings and all monthly meter readings thereafter, until such times as said rates and charges may be changed by ordinance duly enacted according to law.

SECTION 2. RATES AND CHARGES ARE FOR COMBINED WATER AND SEWER SERVICES; SPECIAL PROVISION FOR PREMISES WHERE SEWER SERVICE IS NOT AVAILABLE. Pursuant to said ordinance which was adopted on September 8, 1952, as identified by its title or caption in the preamble of this ordinance, the former separate water system and the former separate sewer system of said City of Benton, Kentucky, now constitute a single combined and consolidated water and sewer system for the purpose of furnishing an adequate supply of pure water to the commercial, industrial and domestic consumers of said city and for the purpose of draining off and making suitable disposal of water and sewage from the premises of the users in the interests of the Public Health and General Welfare of said citizens and inhabitants. A single schedule of rates and charges for such combined water and sewer service, as

hereinafter prescribed, shall be charged to and collected from all customers and users of the services of said combined system except in the case of premises which are furnished water service where sewer service is not made available by said city. Customers and users of water service in premises where municipal sewer service is not made available shall pay two-thirds of the respective rates and charges, otherwise fixed for combined water and sewer service, as hereinafter set forth. Sewer service is available within the meaning of this ordinance if a drain pipe or sewer line of the combined and consolidated water and sewer system exists in a street or alley adjacent to the premises, or if the nearest point at which a connection to a sewer line may be made is 100 feet or less from the improvements from which sewage disposal should be made. All customers and users of water service in premises where sewer service is "available", as herein defined, shall pay the full rates and charges set forth in Section 3 hereof, whether such premises are actually connected to the sewers or not; it being hereby declared that all such premises are mandatorily required to be connected for sewer drainage purposes in order to preserve and promote the Public Health and General Welfare of said city and its inhabitants.

SECTION 3. SCHEDULE OF RATES AND CHARGES ESTABLISHED; BASIS THEREFOR IS AMOUNT OF WATER CONSUMED, AS SHOWN BY WATER METER READING. Effective as set forth in Section 1 of this ordinance, the new schedule of rates and charges for combined water and sewer services provided by the municipally owned combined and consolidated water and sewer system as the same now exists, and as the same may hereafter be extended and improved, shall be based upon the amount of water consumed by the customer or user, as shown by the monthly readings of the water meters and said charges shall be as follows:

For the first 3,000 gallons of water consumed in each month (Minimum bill) \$3.15
If water consumption exceeds 3,000 gallons and does not exceed 3,500 gallons, the bill shall be \$3.70
If water consumption exceeds 3,500 gallons and does not exceed 4,000 gallons, the bill shall be \$4.20
If water consumption exceeds 4,000 gallons and does not exceed 4,500 gallons, the bill shall be \$4.75
If water consumption exceeds 4,500 gallons and does not exceed 5,000 gallons, the bill shall be \$5.25
If water consumption exceeds 5,000 gallons and does not exceed 5,500 gallons, the bill shall be \$5.80
If water consumption exceeds 5,500 gallons and does not exceed 6,000 gallons, the bill shall be \$6.30
If water consumption exceeds 6,000 gallons and does not exceed 6,500 gallons, the bill shall be \$6.85
If water consumption exceeds 6,500 gallons and does not exceed 7,000 gallons, the bill shall be \$7.35 plus 30 cents for each 500 gallons or fraction thereof in excess of 7,000 gallons.
If water consumption exceeds 20,000 gallons, the bill shall be \$15.15 plus 20 cents for each 500 gallons or fraction thereof exceeding 20,000 gallons per month.

SECTION 4. WATER METERS TO BE READ AND BILLS RENDERED MONTHLY; WHEN DUE; PENALTIES. ALL WATER METERS shall be read monthly between the 25 and 1 days of each calendar month and the bills shall be mailed to the customers and users by the 15 day of each month. The face amount of each bill shall be due and payable at such offices or places as may from time to time be designated by the City Treasurer on or before the 25th of the calendar month during which the bill is rendered; provided, however, that if the 25 day of any month falls upon a Sunday or a legal holiday the face amount of the bill may be paid, without penalty, before the

close of business hours on the next ensuing day which is not a Sunday or a legal holiday. Thereafter a penalty of 10 per cent of the face amount of the bill shall become payable. If the bill and penalty are not paid during the calendar month next following the month in which the bill is rendered, the premises of the customer or user shall be disconnected from water service except in cases where (a) non-payment is by reason of an emergency or other extra-ordinary circumstances, and (b) it is shown that unusual hardship or danger to life or health would be caused by disconnection, and (c) satisfactory assurances are given to the Mayor or City Treasurer that the bill and future bills will be paid. A charge of \$1.00 is hereby fixed for each disconnection of water service, and a charge of \$1.00 is hereby fixed for each reconnection and no reconnection shall be made unless such charges are paid.

SECTION 5. ESTIMATED COST OF NEW CONNECTIONS TO BE PAID BEFORE CONNECTION IS MADE. Each new user of the combined and consolidated water and sewer system of said city shall pay to the city, before connection is made, the sum of \$50.00 to defray the estimated actual cost to the city of making such connection. In the case of premises where sewer service is not "available", as that term is defined in Section (2) of this ordinance, the charge shall be \$40.00, and if at a later date sewer service is made "available" to such premises, the difference in the sum of \$40.00 shall be paid before a sewer connection is made.

SECTION 6. So long as there may be outstanding any of the "City of Benton Water and Sewer Revenue Bonds" authorized or permitted to be issued pursuant to the provisions of the ordinance adopted on September 8, 1952, which is identified by its title or caption in the preamble of this ordinance, the rates and charges for services rendered by the combined and consolidated water and sewer system as set forth in this ordinance shall not be altered, except upon the following conditions:

(a) As mandatorily required by Section 58.070 of the Kentucky Revised Statutes, the rates and charges shall be increased whenever necessary in order to provide sufficient income and revenues of said system to pay all of the expenses of operating the same, to set aside reasonable and adequate sums from time to time into the Depreciation Fund for extensions and improvements, and to pay the principal of and interest on the outstanding bonds of said series as the bonds and coupons become due and payable.

(b) Said rates and charges may be increased at anytime or from time to time by ordinances duly adopted by the City Council if in the opinion of the City Council it is desirable to increase such rates and charges in order to comply with the conditions of said ordinance which was adopted on September 8, 1952, as set forth in Section (11) of said ordinance.

(c) The rates and charges herein set forth may be reduced only if (i) there shall first have been obtained a written statement of an independent certified public accountant not ordinarily in the employ of the city, based upon necessary examination of the financial records of the city relating to the operations of the water and sewer system, showing that for a period of not less than two years next preceding the date of such statement the then existing rates and charges have produced sufficient revenues to pay all costs of operating the combined system, to set aside from time to time adequate funds into the Depreciation Fund for extensions and improvements, and provide sufficient additional income available for debt service to equal one and one-half times the average annual amount required to pay principal of and interest on all of said "City of Benton Water and Sewer Revenue Bonds" at that time outstanding, and (ii) there shall first have been obtained a written statement of a licensed engineer to the effect that the reduced rates then proposed to be made effective will likewise provide sufficient net revenues

available for debt service to equal not less than one and one-half times such average annual principal and interest requirements, and (iii) a signed copy of each of said statements shall be filed in the office of the City Clerk subject to inspection by any interested party, and a signed copy of each such statement shall be furnished by registered mail to the original purchaser of the outstanding water and sewer revenue bonds.

(d) In the event it shall become possible to attract to the City of Benton or the immediate vicinity a new commercial or industrial plant providing substantial opportunities for employment to the citizens of the city and the immediate vicinity, and such commercial or industrial firm is such as to require large quantities of water, and in the event a comparison of the cost of water and sewer service, as herein set forth, with the charges made for comparable communities shows that the charges herein set forth for such large quantities of water, as may be required, are excessive, the city may be an ordinance duly enacted by the City Council establishing a new classification at a reduced rate for water consumed in excess of 20,000 gallons per month, or any other appropriate higher figure, providing (i) such special rate shall apply to all citizens, inhabitants and water customers in the same classification, and (ii) there shall first have been obtained, filed in the office of the City Clerk, and also furnished to the original purchaser of the outstanding water and sewer revenue bonds a written and signed statement of a licensed engineer stating that in his opinion and based upon necessary examination of the financial records relating to the water and sewer system, such special rate then proposed to be put into effect is and will be not less than the cost to the city of providing such water and sewer service.

SECTION 7. This ordinance shall constitute a contract between the City of Benton, Kentucky, and the holders of the bonds and interest coupons outstanding from time to time, pursuant to the above mentioned ordinance which was adopted on September 8, 1952, as amended on January 5, 1953; and so long as any of said bonds or the interest coupons thereto attached remain outstanding and unpaid, the city shall be bound by all of the provisions hereof.

SECTION 8. All ordinances, resolutions, or parts thereof in conflict with the provisions of this ordinance, are hereby repealed and rescinded to the extent of such conflict.

SECTION 9. This ordinance shall be in full force and effect from and after its adoption, approval by the Mayor, and publication as provided by law; and the rates and charges herein prescribed shall be effective as set forth in Section (1) hereof.

Adopted by the City Council of the City of Benton, Kentucky, at an adjourned regular meeting held on January 12, 1953, on the same occasion signed by the Mayor in open session as evidence of his approval, and ordered to be published in the Marshall Courier in an early issue thereof.

J. T. Kinney
Mayor, City of Benton, Kentucky
(SEAL)
ATTEST:
Joe Williams
City Clerk

CERTIFICATION
I, Joe Williams, City Clerk of the City of Benton, Kentucky, hereby certify that the foregoing is a true and complete copy of an ordinance adopted by the City Council of said city on January 12, 1953, and that the

same is now in full force and effect.

WITNESS my hand and the seal of said city this 12 day of January, 1953.
(SEAL)

Pains, distress of "those days" or amazingly relieved

In 3 out of 4 cases in doctors' tests!

Here's wonderful news for women and girls who — each month — suffer the tortures of "bad days" of functionally-caused menstrual cramps and pain — headaches, backaches, and those "no-good," dragged-out feelings.

It's news about a medicine famous for relieving such suffering!

Here is the exciting news. Lydia E. Pinkham's Vegetable Compound — gave complete or striking relief of such distress in an average of 3 out of 4 of the cases in doctors' tests!

Scientifically Modern Action
Yes! Lydia Pinkham's has been proved to be scientifically modern in action!

This news will not surprise the thousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage you (if you're not taking Lydia Pinkham's) to see if your experience doesn't match theirs... to see if you, too, don't avoid
